

GreenBeam50-A Green Laser Pointer

BEAMSHOT is proud to introduce our newest hand held Green Beam tactical laser pointer. Slim & Light, the pointers compact on the go design makes this product the ideal choice for professionals who depend upon their equipment. This product was designed with the working environment of today's military in mind. True daylight visibility allows rapid deploying teams to accurately communicate critical target and obstacle positions. When your message must be perfectly clear, a visual aid you can count on becomes a vital tool. Our 520nm wavelength laser pointer provides 100 meters of daylight visibility and one mile nighttime range.
